

A HAPPY WORLD OF LEARNING

A universally accepted fact, a child's earliest memories are vividly recalled in adulthood.

A child in a joyful state of mind is infinitely more receptive, open to learning and has a higher overall retention.

We at Tender Feet strive for this to be not just a far-fetched idea, but a living reality! In addition, pleasant memories do play a significant role in positively conditioning a child's mind. All this and more is a daily practice at Tender Feet, where children are nurtured with the utmost love and care, values are emphasized and a sense of overall well-being is developed in a nurturing environment.

A Joyful Child : THE TENDER FEET MISSION

A remarkable institution headed by a philanthropist, Anu Khurana believes that a 'Joyful Child' is the foundation stone of positive development. Hence, the educational tools and facilities are geared towards providing an environment where a child can learn, absorb and imbibe values and ethics that would play a significant role in later years.

At Tender Feet, our Principal, ably assisted by an experienced team of dedicated teachers, showers genuine love and affection on all children.

Our Student: Teacher Ratio of 12:1 makes it conducive for extending personalized attention that is imperative and essential in a child's growth.

The Tender Feet curriculum is an exuberant mix of work and play!

Our outdoor Sand Pit, 'Jhoolabari' and Splash Pool are areas where children can bond and interact with their peers in a safe and friendly environment.

Additionally, interest is promoted by learning-at-school through a range of activities:

- *Story Telling*
- *Puppet Show*
- *Electronic media- aided learning and EPL (Exercises of Practical Life)*

'Theme projects' generate widespread enthusiasm and help inculcate a keen interest in the world around.

ENDLESS MOMENTS OF DISCOVERY

Self-discovery is an intrinsic part of a child's development. At Tender Feet, we provide the tools that help develop mental skills, create an awareness of the world around and help in building confidence through activities.

Our Fun Fridays are designed to give children ample opportunity to express themselves through the medium of colours, 'show & tell', role-play as well as indoor and outdoor games.

Our Role Play Area is equipped with props and toys to create and play in environment such as a home, a kitchen or even a market place etc. to enable real time learning.

IN HAPPINESS & HARMONY

Values instilled at a young age sow the seeds that ultimately help children flower into responsible citizens of tomorrow.

Togetherness is an invaluable trait we help develop in the tender minds under our care. Hence, mornings always begin with Prayers in the Assembly Hall.

'Earth Sense Day' is celebrated every Monday. The endeavour is to create an awareness of the different ways to responsibly segregate and dispose of waste, such as plastic, paper and E-waste.

PARENTING WITH PARENTS

The Management is extremely approachable to the parents of children at Tender Feet.

We have dedicated a special day every month for **Parent-Teacher Interaction** - a forum where your child's progress may be discussed with the Class Teacher or the Principal.

We even encourage our "babies" to take books home from our **well-stocked Library**. Parents are encouraged to read to their children at home - stimulating their imagination furthermore.

Extra-Curricular Activities and Field Trips outside the school environs are an intrinsic element of the learning process at Tender Feet. We organize educational excursions and picnics for our children to places such as the Mother Dairy, Planetarium & an Organic Farm etc. Every child in school gets to perform on stage. The highlights of the school calendar have been the Ramlila, Christmas Celebrations, Graduation day & Spring Carnival.

DAY CARE FACILITY:

Comfort for Parents and Children.

It is our endeavour to make school truly a 'home away from home' for children.

This feature may also be experienced in the Day Care Facility for the convenience of working parents. Children are well taken care of.

Spending extra time with their peer group at this facility is definitely a healthier option for children than spending time alone with a helper at home - a harsh reality of present day 'nuclear' families.

HIGHLIGHTS

1. Admissions open throughout the year (subject to availability of seat).
2. We admit children 18 months and above.
3. Student-Teacher Ratio of 12:1
4. Well qualified, experienced and friendly teachers and staff.
